

唐志强

讲师

tangzq2022@dlnu.edu.cn

#### 教育背景

吉林大学理学博士(2021)  
吉林大学理学学士(2015)

#### 研究领域

概率统计极限理论, 随机过程等

#### 代表性成果

论文类:

- (1) Limit theorems for linear processes generated by  $\rho$ -mixing sequence, *Communication in Statistics-Theory and Methods* 50(17): 4081-4095, 2020. (SCI)
- (2) Complete moment convergence for the linear processes with random coefficients generated by a class of random, *Communication in Statistics-Theory and Methods*, 2021, <https://doi.org/10.1080/03610926.2021.1876238> (SCI)
- (3) Limit distribution for products of sums of partial sums of linear processes generated by NSD sequence, *Communication in Statistics-Theory and Methods*, 2022, <https://doi.org/10.1080/03610926.2022.2104874> (SCI)
